

# BERRY BOOST

## Introduction

Keeping in view the special needs of Blueberry plant, we have designed an organic base liquid product "Berry Boost™" that helps in achieving genetic yield potentials of the plant. It is an excellent formulation which is suitable for all berry crops. It is designed with Agrisol ESR\* technology, that provides all necessary nutrients for growth & development by improving nutrient availability, uptake and their utilization within plant.

Its continuous use through drip/drench helps plant to fight different types of stresses (Biotic and Abiotic), and enhances specific metabolic processes that will result in better yield, in terms of quality and quantity.

## Benefits

- Increases organic matter & improves soil structure.
- Stimulates plant growth, root and shoot development.
- Enhances nutrient availability by solubilizing nutrients in soil.
- Increases uptake and utilization of nutrients in plants.
- Improves fruit size, quality, shelf life and total production.
- Nutrient metals (Iron, Manganese, Copper and Zinc) are fully chelated.
- Compatible with most insecticides, fungicides.

## Guaranteed Minimum Analysis

Total Nitrogen (N)	3.0 %
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> )	11.0 %
Soluble Potash (K <sub>2</sub> O)	15.0 %
Magnesium (mg)	0.5 %
Sulphur (S)	4.0 %
Iron (Fe) EDTA	0.05 %
Copper (Cu) EDTA	0.01 %
Manganese (Mn) EDTA	0.05 %
Zinc (Zn) EDTA	0.05 %
Boron (B)	0.01 %
Molybdenum (Mo)	0.0005 %

## Product Characteristics

Appearance:	Thick brown liquid
Solubility	Water soluble
Specific Gravity:	1.25 g/ml
pH:	6.1 – 6.5

## Ingredients

Ammonium Sulphate, Potassium Sulphate, Monopotassium Phosphate, Potassium Nitrate, Magnesium Nitrate, Iron, Copper, Manganese & Zinc EDTA and Borax, Sodium Molybdate and naturally derived plant extracts (Kelp & Alfalfa).

## Direction of Use

It is recommended for use from planting or early spring to fruit formation stages. Use sufficient water to soak soil well. For ideal results use 2 – 3 times a year along with regular fertilizer program. Drip/Drench: Apply 4 - 5 L/acre.

## Packaging Sizes:

10L, 205L, 1000L.

Additional sizes are available on request.

## Storage & Cautions

- Shake well before use.
- Store Product in a cool and dry place in original container.
- Test compatibility with other products prior to use.
- Avoid contact with skin & eyes and inhalation of spray/dust.
- Recycle container in accordance with federal and provincial regulations.
- Keep product out of reach of children.

## Conditions of sales and limitations of Warranty & Liability:

There are no implied warranties of merchantability or fitness with respect to the product, nor are there any expressed warranties other than as many be contained in any guaranteed analysis that may accompany the product. Seller shall not be liable for any special indirect, incidental or consequential damage or expense of any nature, including but not limited to lost products, property damage or Seller's liability is limited to refund of purchase price as per return policy of company.

\*ESR Technology Releases locked nutrients in the soil and make them available for plants uptake and facilitate their translocation in the plant.
